

MUFFIN BOX SPACESHIP

Let's blast off to space, Camp Little Bites campers! With craft supplies, a box of Little Bites® muffins, and a big imagination, this activity can take you to the stars.

ACTIVITY DIRECTIONS

1. Create panels from an empty Little Bites® Muffin box.
2. Trace & cut out your spaceship shapes.
 - To cut out the window of the hull, first make a small puncture with scissor in the center of window. From there, cut a small interior X. Then you will be able to wedge in your scissors to cut out the window.
3. Decorate on the blank side of your cutout spaceship shapes!
4. Form the hull into a cylinder and tape along the long, exposed edge.
5. Attach the hull to the wings using a *hot glue gun.
 - * This one's for the parents!
6. Using frosting, attach candy eyes to your Little Bites® Muffin, and send it off into space!

Absolutely **STELLAR** job!
Here's your badge:
